Meeting Your Hydraulic and Pneumatic Needs Since 1996

Hydraulic Technical Services, Inc. is recognized as a premier service oriented company dedicated to quality design, manufacturing, installation, and repair of hydraulic and pneumatic systems. Our fluid line installation technique, extensive mobile installation equipment and qualified personnel provide for quality piping and hose installations; reducing future maintenance issues including leaks, hose failures and down time. With our dedicated and experienced service technicians and sales staff, we provide quality workmanship and reliable service.

WHAT SETS HTS APART FROM COMPETITORS?

- 🔧 Competent hydraulic and pneumatic technicians with extensive field experience
- 🔧 Custom design of hydraulic and pneumatic systems
- 🔧 Fully-equipped fleet of mobile service units
- 🔧 Complete, in-house repair and rebuild facilities
- 🔧 200 HP hydraulic test stand - test repairs at full flow and pressure
- 🔧 Bent radius piping from 1/4" to 4" schedule 80 p.o.p.
- 🔧 Steel hydraulic flared tubing & piping from 1/4" to 2"
